

The Nursing Orientation sessions provide a standard of basic skills and content for new nursing staff. They also provide Information and learning opportunities about policies, procedures and technology relevant to HHS, as well as support the current unit-based preceptors as they work with new staff, by providing a standard baseline for knowledge and skills.

Topics include:

- Respiratory Care
- Code Blue
- Skin & Wound Care
- Transfusion Medicine
- Pre-Op Prep
- Vascular Access Therapy - Care and Management
- Elder Friendly Care
- Alaris Pumps
- Glucose Meter
- Chest Drainage
- Diabetes
- Nutrition
- Pain Management
- IV & Patient Controlled Analgesia
- Epidural - Care and Management
