

The Physical Assessment Workshop is a one-day workshop that provides interactive sessions on assessment topics. The sessions include facilitator-lead demo, a discussion of common abnormal findings and interactive activities. This workshop, in conjunction with the e-learning module, competency checklist and final evaluation, are designed to enhance the learner's knowledge and skill of physical assessment.

Topics covered:

- Respiratory Assessment
- Cardiovascular Assessment
- Gastrointestinal / Genitourinary Assessment
- Neurological Assessment
- Musculoskeletal Assessment

Staff will **NOT** be able to register for the Workshop **until** they have completed the e-Learning module. If they have not completed the e-Learning module 7 days **prior to the start date**, they will be removed from the Workshop

Registration is required through e-Learning using the following learning pathway:

- Physical Assessment Competency Pathway - Step 1 of 4 (e-Learning) **MUST** be completed **before** attending the workshop
- Physical Assessment Competency Pathway - Step 2 of 4 (one-day workshop)
- Physical Assessment Competency Pathway - Step 3 of 4 (competency declaration)
- Physical Assessment Competency Pathway - Step 4 of 4 (evaluation)
