your scheduled appointment.

Nuclear Medicine – Adult Patient Preparation Instructions

Biliary Scan	Nothing to eat or drink for at least 4 hours prior to test. Test duration – 90 minutes.
Bone Scan	No patient preparation required. Two parts to exam. First portion lasts up to 30 minutes. The patient returns 2.5-4 hours later for the second portion of imaging, which lasts for 1 hour.
Gastric Emptying Study	Nothing to eat or drink for at least 12 hours prior to test. Liquid emptying test duration – 45 minutes. Solid emptying test duration – 4.5 hours. May be completed for patient either on or off medication, at physician's discretion (please indicate). If patient is directed not to take medication, then they must be off medication for at least 24 hours. E.g. domperidone/ motilium, metoclopramide/reglan, tegaserod/zelnorm.
Lung Scan	No patient preparation required. Test duration – 1 hour.
Renal Scan	Patient to drink 2 glasses of water prior to scheduled test (patient can still void). Check with physician for discontinuation of any medications prior to appointment. Test duration – 60 minutes.
Thyroid Uptake and Scan	Two-day test. In almost all cases, anti-thyroid medications must be discontinued for 5 days, and thyroid hormone replacement medication must be discontinued for 4 weeks. First day, a capsule is given, and uptake is measured 4 hours later. Second day, patient returns for a second uptake and imaging (90 minutes).
White Blood Cell Scan (Indium)	Two-day test. First day has two parts, which each take 45 minutes with 4-5 hours between each part. Patient should be prepared to be available entire day for test. Next day patient returns for imaging (2 hours). Please notify our office if the patient is on dialysis.
White Blood Cell Scan (HMPAO)	Possible two-day test. First day has three parts, which each take 45 minutes, with 3 hours between each part. Patient should be prepared to be available entire day for test. Patient may return next day for additional imaging and will be notified of this on the first day. Please notify our office if the patient is on dialysis.
