

Same Day Overnight Patients Hamilton General Hospital

Visiting

Your family/friend will be staying in the Same Day Overnight (SDO). SDO is within the Post Anesthetic Care Unit (PACU). PACU is also known as the Recovery Room.

Please call SDO/PACU at ext. 46440 after _____ for a visit.

If permitted, go to the OR locked doors and call ext. 46440 again for SDO/PACU staff to open the door to allow you to come in.

Once through the doors walk forward until you see a hallway to your left and turn into that hallway, walk forward toward the sign from ceiling “PACU/SDO” and go through blue door to your right. You will see a sign before you see the door. Once through that door someone will direct you to your family/friend who will be in a bed to your left.

Picking up

Your family/friend needs to be picked up by 6:30 am.

If you know that the pick up will be before 6:30 am, please call ahead 905-527-0271, ext. 46440. Let the staff know what time you will be here so your family/friend can be dressed and ready to go when you arrive.

Parking

There are 3 spots in front of the ER department that allow for 15 minutes of free parking to pick up/drop off patients that you can use. Please do not park in the fire routes (in front of hospital or on Copeland Avenue) as they are tow away zones.

Thank you and we wish you a smooth transition home and quick healing!!
