Date _____ Time _____

Please arrive to your appointment 15 minutes earlier than the appointment time.

Please bring:

- your health card with you
- a list of your current medications
- medications that you will need to take during your appointment

Where to go:

Juravinski Hospital – Entrance A
Diagnostic Imaging
Level 1 – Section B
711 Concession Street
Hamilton ON L8V 1C3

Please turn over for instructions on how to
prepare for the procedure 

Medication and diet

Please take your usual medications and eat your regular diet before the procedure.

Before your procedure

On the day before the exam, you must take a mild laxative. This will clean out your bowels. We recommend you take 1 to 2 Dulcolax tablets at 4:00 pm the day before the procedure. You can buy Dulcolax at a pharmacy without a prescription.

Antibiotics

Your doctor will prescribe a medication Ciprofloxacin (Cipro) before the procedure. Cipro is an antibiotic. You should be given 6 pills of 500 mg each.

You take one 500 mg pill in the morning and one 500 mg pill in evening for 3 days.

Day 1 – The day before the gold seed insertion.	morning	evening
Day 2 – The day of the gold seed insertion.	morning	evening
Day 3 – The day after the gold seed insertion.	morning	evening

Please note: If your pharmacy has given you 3 tablets of 1000 mg, please take one a day.

Day 1 – The day before the gold seed insertion.	morning
Day 2 – The day of the gold seed insertion.	morning
Day 3 – The day after the gold seed insertion.	morning
