

COVID-19 Update

Date: Wednesday, May 6, 2020

To: Everyone at St. Peter's Hospital

From: Kim Alvarado, Director, Oncology, Critical Care & Palliative Care Program
Dr. Dominik Mertz, Medical Director, Infection Prevention and Control

Subject: **UPDATE - Outbreak on 3 West over and unit re-opened to admissions**

Outbreak on 3 West declared over and unit is open to admissions

Further to the updates shared on April 20, 23 and 29, a total of five patients and five healthcare workers (all from 3 West) were confirmed to have Covid-19. We are saddened to inform you that a patient who had underlying health conditions and Covid-19 passed away. Our deepest condolences are extended to the patient's family.

Point prevalence testing of all patients at St. Peter's was completed last Thursday as part of HHS' expanding surveillance practice. No other patients in our hospital have tested positive at present.

Our sincere appreciation to everyone whose efforts contributed to limiting the spread of this virus.
