

# COVID-19 Update

**Date:** Wednesday, June 24, 2020

**To:** Everyone at HHS

**From:** Kelly Campbell, VP, Corporate Services and Capital Development

**Subject:** **Payment for patient television service to resume July 1**

---

Hamilton Health Sciences (HHS) has offered free television service to all patients since April 2. This was a temporary but important gesture to support patients at a time when visitors were not permitted to our hospital due to COVID-19.

Beginning July 1, television service will be available for purchase through our Hospitality Network. This move coincides with the staged and gradual approach to reintroduce family member/caregiver visits to inpatient areas, and the gradual resumption of health services and procedures across our sites.

Free public Wifi access will continue for all patients. This can be accessed through “HHS Free Wifi” in their device’s network settings.

Thank you,

Kelly
