

How to Schedule an Appointment in MyChart

With our new MyChart by Epic patient portal, we have the ability to schedule appointments with members of the Health Care team, from within MyChart. Starting on June 4, 2022, a few clinics at HHS will be using this feature. To know if the clinic you visit uses this feature, ask your Health Care Provider at your next visit.

If a member of your Health Care Team is using this feature, you will be able to schedule an appointment with them from inside MyChart, once you establish a relationship with them. To establish a relationship with a Health Care Provider you just need to see them for a visit.

If your Health Care Provider is participating in the feature, and you have an existing relationship with that provider, you can schedule an appointment from MyChart by completing the following steps:

Schedule an Appointment with your Health Care Provider from MyChart

1. Log into your MyChart account
2. Go to the **Visits** activity, found on the main toolbar

3. Click the **Schedule an appointment** button
4. Select the provider you would like to schedule an appointment with by clicking on their name.

Schedule with a specific provider

Choose a provider who matches your needs.

5. Select the kind of appointment you want to schedule. This will usually be a Problem Follow-up Visit.

Schedule an Appointment

- The location will pre-populate with the place the provider works.
- Indicate the date and time you would like the visit to occur on. You will only be presented with available dates and times for the provider you are trying to schedule with.

Appointment Scheduled

You're all set! You can review details of your upcoming appointment below.

Important Considerations

- The scheduler for the clinic you booked the appointment in will get a notice that you have done this, so you do not need to call anyone to tell them you have scheduled an appointment.
- If your Health Care Team is not participating in this feature on June 4th, it does not mean they will not be participating in the future.
- If you have any questions about the use of the feature or about MyChart, please contact us by email: epicmychart@hsc.ca, or by phone by calling 905-521-2100 and asking for the Health Records department at the HHS site you visit most often.
- Visit our HHS Website for more tip sheets and information about MyChart at <https://www.hamiltonhealthsciences.ca/patients-visitors/digital-health-care/mychart/>
