

Tip Sheet – New Test Results Features in MyChart

On June 2, 2023 we are upgrading our system which will allow for some new features in MyChart. The Test Results activity in MyChart will look a little different. This tip sheet will explain the changes and new features related to Test Results in MyChart.

Test Results

1. To access your test results in MyChart, log into your account and click on the Test Results tab on the main toolbar:

2. You will be taken to the Test Results page, where you will see a list of the results available to review. Each result will list the name of the test, the date the test was done, and the provider who ordered the test.

5. Each result will contain a button that says “View Trends”. Clicking this will allow you to compare similar test results done on different dates, if they are available to you:

Date	Value	Normal Range
Nov 8, 2022	500 x10 ⁹ /L High	4 - 11 x10 ⁹ /L
Oct 28, 2022	50 x10 ⁹ /L High	4 - 11 x10 ⁹ /L
Oct 28, 2022	20 x10 ⁹ /L High	4 - 11 x10 ⁹ /L

6. From within the “View Trends” section, you can specify the lookback period you want to see. You can choose between Most Recent, All data, Month, Year, or a Custom time frame:

Important Considerations

- If you have a question about a test result, please reach out to the provider who ordered the test, or to your family doctor.
- Test results only appear in MyChart once they have a status of “Final”.
- MyChart will not contain any test results that occurred prior to June 4th, 2022.
- Some tests done at HHS will not appear in MyChart due to privacy or safety concerns.
 - If you are looking for a test result that is not in your MyChart, it could be because the result is not yet final, or because that specific test is not shared to MyChart. Please contact the provider who ordered the test if you have questions about why your result is not appearing in MyChart.
